

AP Biology

Major Themes

These are the major themes identified by the AP Biology Development Committee. This committee feels that these themes should be emphasized throughout the course. Students are encouraged to refer to these as we cover each topic and attempt to relate each theme to the topic being covered.

1. Science as a Process
2. Evolution
3. Energy Transfer
4. Continuity and Change
5. Relationship of Structure to Function
6. Regulation
7. Interdependence in Nature
8. Science, Technology and Society
