

Mitosis

Stage	Drawings	Major Events*
Interphase(Technically, this is not a stage of mitosis.)		G ₁ S G ₂
Prophase		
Metaphase		
Anaphase		
Telophase		

*Describe what the chromosomes/DNA are doing in each stage. Also tell what important related events are occurring in the cytoplasm regarding centrioles, sprindle apparatus, etc. If you have room, you can sketch the chromosomes in the left side of these boxes.
